

HOME CHARGING

AC 7kW
0-100% CHARGE
12.9 HOURS

PUBLIC CHARGING

Charging times may vary depending on the public charging infrastructure available. To find out more about charging times, visit [jaguarusa.com/charging](https://www.jaguarusa.com/charging)

Charging solutions shown are not available in the U.S. Please contact your Jaguar Retailer for further details.

TECHNOLOGY INFOTAINMENT

Delivering a wealth of information and entertainment, every I-PACE is equipped with our Jaguar InControl® infotainment system, Touch Pro Duo. It features intuitive and advanced integrated technologies to ensure everyone can make the most of their journey*.

TOUCH PRO DUO

The new standard 10" and 5" dual high-definition Touchscreens allow the user to view required information while simultaneously being able to interact with additional features, for increased flexibility and efficiency of use. For instance, you can use the navigation system in the upper screen while adjusting multimedia settings on the lower. Direct access to cabin and seat temperature controls are also available via the new multi-function dynamic dials. For a truly elegant and streamlined appearance, the steering wheel also has new hidden-until-lit, touch-sensitive switches as standard. One of these switches is programmable, so that it can be personalized to your preferences to accomplish a host of functions*.

INTERACTIVE DRIVER DISPLAY

The 12.3" high-definition Interactive Driver Display can receive and project a vast amount of driving information, entertainment and driver assistance data including navigation, phone and media. Its high resolution ensures the utmost clarity and its refined processing engine delivers smooth moving pin sharp graphics. To help you find your way more easily, Navigation Pro enables you to display full screen navigation with 3D mapping (where available)*.

HEAD-UP DISPLAY

Minimizing distractions and the need to take your eyes off the road, Head-up Display is an option that presents key vehicle data such as your speed, gear position and navigation directions on the windshield. It features crystal clear full-color graphics in high resolution, enabling you to see all driver inputs and information with ease**. It can display important information from Touch Pro including phone and media information such as the name of the track you might be listening to. The feature can be turned on and off dependent on driver preference.

MERIDIAN™ AUDIO EXCELLENCE

Jaguar audio partner Meridian's technologies have helped ensure that the I-PACE is a superb space in which to experience sound. Digital Signal Processing delivers performance that would otherwise require significantly larger speakers, while Cabin Correction tailors the sound to the vehicle's precise acoustics. Digital Dither Shaping preserves performance details to evoke the emotions of the original recording. Exclusive to Meridian, Trifield™ produces a consistent, concert-like experience for all occupants. I-PACE offers the 380 watts, 11 speaker Meridian Sound System as standard. The 825 watts, 15 speaker Meridian Surround Sound System is available as an option.

*Do not use Jaguar InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.

**These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Jaguar Retailer for more details.

CONNECTIVITY

Jaguar InControl® is our suite of features that connects you to your vehicle and links you seamlessly with the outside world. There are a range of packages and features included as standard on the I-PACE. Select the appropriate apps and some of the InControl features stay with you, even when you are away from the car, to make sure the Jaguar experience is more enjoyable than ever*.

STANDARD FEATURES

PINPOINT TOUCH CONTROL*

Pinpoint touch control allows you to interact with information swiftly. The Touchscreen responds in the same manner as a smartphone or tablet computer, providing multi-touch gestures such as pinch-to-zoom and swipe.

PERSONALIZED HOMEPAGE*

You can set up your homescreens the way you want them. With over 60 shortcuts and widgets, you can customize your system around the features you use most.

INTERACTIVE SIDE PANEL*

A choice of side panels means you can multi-task. For example, your main screen area can be used for navigation, while the side panel provides phone controls. Simply swipe up and down to switch between multiple panels.

MULTIMEDIA*

Enjoy a range of multimedia features on the Touchscreen. Connect your device and see details of playlists and music displayed by artist, album and genre. Create a list of songs you want to play and add to the line up at any time.

ENHANCED PHONE INTERFACE*

Making it easier you can call a favorite contact with a single touch. Additional functionality includes direct access to voicemail, conference calling and homescreen integration.

VOICE RECOGNITION SYSTEM*

So you can complete tasks without taking your eyes off the road, the I-PACE offers intelligent voice recognition. For example, 'Tune to 97.9' or 'Call home'.

*Do not use Jaguar InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.

REMOTE**

The Jaguar Remote smartphone app, available for download, provides information on your vehicle and enables you to interact with it remotely. Compatible with most smartphones, Android™ Wear or the Apple Watch®, this service includes:

Charging Status Information – Stay continually updated with key battery function indicators including charge state, charging status, charge rate, plug state and estimated EV range.

Remote Charging Control – Use your smartphone to remotely start and stop charging, manage charging rates and even set the maximum state of charge.

Remote Lock/Unlock – Lock or unlock your doors remotely with the click of a button. Simply press the 'lock' button on the Vehicle Security screen of the Jaguar Remote smartphone app to single lock the doors, arm the alarm and fold in the side mirrors. Press the 'unlock' button to open your vehicle, unfold the side mirrors, turn on the dipped headlights and cause the hazard lights to flash twice.

Remote Climate – Prepare your Jaguar in advance by pre-heating or pre-cooling the cabin, so that you and your passengers are comfortable from the moment you step inside.

Beep/Flash – This feature turns on your Jaguar's hazard lights, dipped headlights and sounds an audible alert to help you locate your vehicle.

Journey Tracking – This opt-in feature can automatically record your trip history including your route and mileage statistics. This information can be exported by email to use for expense reporting and can be imported to a spreadsheet.

Vehicle Status Check – Check current range levels, and status of door and window position and locks. See the last parked location of the vehicle and find your way back to it with on-foot directions.

Jaguar Optimized Assistance – You can make a direct call to the Jaguar Assistance team by pressing the button on the overhead console or from the Assistance screen within the Jaguar Remote smartphone app.

SOS Emergency Call – Emergency services will automatically be notified if the airbags are deployed.

Stolen Vehicle Locator – Utilizes GPS tracking technology to help police locate and recover your vehicle.

**Remote contains subscription services that can be extended after the initial term advised by your Jaguar Retailer.

InControl features, options and their availability may vary – check with your Jaguar Retailer for local market availability and full terms. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected. Mobile network connectivity cannot be guaranteed in all locations. InControl Apps and Remote App will need to be downloaded from the Apple/Play Store. All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

STANDARD FEATURES

NAVIGATION PRO

Navigation Pro allows you to save your favorite places, use pinch and zoom gestures for simple map exploration and can display a choice of either 2D or 3D crystal clear map graphics. Navigation Pro also details range on a map, in various driving modes, as a 'spider' diagram that takes into account various factors – for example road topology and speed limits*.

CONNECT PRO PACKAGE¹

Connect Pro consists of Smart Settings, a 4G Wi-Fi Hotspot**, and Pro Services. It's designed to enhance your in-car and out-of-car experience, ensuring you and your passengers enjoy the journey while remaining connected to the world*.

SMART SETTINGS

Designed to deliver a truly personalized experience and reduce driver distraction, Smart Settings combines a number of features.

Profile – The system automatically identifies each driver using their key and phone, and can remember a number of settings saved to their profile. It can select your preferred seat and mirror positions, as well as which media to play at the start of your journey.

Learning – With the 'Learning' function, Smart Settings can also learn and automate your preferences, based on your habits, past routines and the current temperature – including whether you like a warm steering wheel or heated seats² on a morning commute.

4G WI-FI

The 4G Wi-Fi Hotspot** provides in-car access to the Internet, enabling up to eight wireless devices to be used simultaneously in the car. Passengers can connect through the vehicle's wireless network to surf, work, update social media and stay entertained throughout the journey.

PRO SERVICES³

Real Time Traffic Information – Uses live traffic data feeds to give you the most accurate picture of what the traffic is like on the way to your destination.

Online Search – Wherever you are, you can search the surrounding area for places of interest. The system can access expert destination information, travel tips and inspiration as well as online travel reviews of the local area.

Planning Routes and Door-to-Door Routing – Before setting off, use the Route Planner app or online portal to search, save locations or set your destination. The app uses the Cloud to send your destination automatically to your vehicle's navigation screen. When you arrive at your parking, it isn't always clear how to get to your final destination. As you exit the vehicle, the Navigation Pro system will automatically transfer the directions to the Route Planner app on your smartphone. You can then access the directions on how to get to your destination via public transportation or on foot. You are always connected – every step of the way, right to the door*.

Share ETA – You can share your estimated time of arrival so your selected contact(s) will know exactly when you will arrive, as calculated by the navigation guidance system. If you're running late, Share ETA can then send automatic updates via text messages or email, without any further action from you*.

Commute Mode – Allows the system to learn your commutes and automatically advises you of the expected trip time based on live and historical traffic movements without you having to input a destination. The system learns the routes you take for a given destination and then advises which of those is the quickest. The feature can be turned on and off dependent on driver preference.

Parking Service – As you approach your destination, you can see where parking is available. Simply tap on your preferred parking and the navigation system updates to direct you to it.

Online Routing – While you're on your way to a destination the system monitors live traffic conditions and takes into account typical traffic patterns for that time of day, keeping you on the optimum route.

*Do not use Jaguar InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.

**The Wi-Fi Hotspot is intended for passenger use only. InControl features may require an additional subscription with separate terms and conditions.

¹Online functionality and Wi-Fi connectivity is dependent on the installation of a micro SIM with a suitable data contract.

²When heated steering wheel and heated seats are selected.

³Features within Pro Services and Smartphone Package may vary between markets. Please contact your local Jaguar Retailer for more information.

InControl Apps will need to be downloaded from the Apple/Play Store.

SMARTPHONE PACKAGE³

By screen sharing with the I-PACE infotainment system, the standard Smartphone Package helps you stay connected to your smartphone even while in the car. Featuring Jaguar InControl Apps technology, the Smartphone Package allows vehicle-optimized apps on your Android™ or Apple® smartphone to be controlled through the Touchscreen, including your contacts, calendar and music player, via a USB cable*.

You can also download third-party apps offering a vast range of services. Applications include:

Spotify⁴ – Access a library of more than 30 million songs with this seamlessly integrated app. Featuring all the same intuitive functionality as the Spotify smartphone app, you can search songs, stations and recommendations, create playlists and access your music in offline mode. Simply log in using your existing Spotify Free or Spotify Premium account.

Tile⁵ – Helps you find lost or misplaced items in seconds. Attach a tiny Bluetooth tracker Tile to your keys, wallet or bag. The easy-to-use Tile app can then help you find these items should they be misplaced. The app is accessible any time through your vehicle's Touchscreen, allowing you to make sure you have everything you need with you, before you set off on your journey*.

³Please check App Store and Google Play for availability.

⁵Bluetooth tracker tiles must be purchased separately. 2016 Tile Inc. and the Tile design are trademarks of Tile, Inc.

The Bluetooth word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Jaguar is under License. iPhone is a registered trademark of Apple Inc., registered in the US and other countries. Please ensure iPhone compatibility is reviewed with your local authorized Jaguar Retailer.

DRIVER ASSISTANCE

MAKING DRIVING EASIER

From negotiating city traffic or the highway, to providing additional assistance for you and your passengers, there's a wealth of innovative technologies available; either as standard, optional or as part of an optional Package. Whichever you choose, you'll find every feature has been designed and engineered to heighten your enjoyment of the vehicle.

STANDARD FEATURES

Emergency Braking can help prevent foreseeable collisions with other vehicles, as well as cyclists or pedestrians. If a potential frontal collision is detected, a warning is displayed giving you time to take action**. A camera at the front of the vehicle monitors at speeds from 3 mph to 50 mph for frontal collisions, 3 mph to 37 mph for pedestrians and 12 mph to 37 mph for cyclists. If a collision is still anticipated and you have taken no action, this system is designed to apply the brakes to help reduce the severity of the possible impact*.

Cruise Control with Speed Limiter allows the driver to maintain the current speed of the vehicle without the need for continued use of the accelerator pedal. In addition, the Speed Limiter will also allow the driver to pre-set a maximum specified speed which the vehicle will not exceed. Both functions can be easily turned on or off by the driver as desired*.

Driver Condition Monitor is designed to detect if you're starting to feel drowsy and to give you an early warning when you need to take a break*.

Lane Keep Assist is designed to detect when your vehicle is unintentionally drifting out of your lane, and to gently steer you back*.

Traffic Sign Recognition keeps you informed and aware on the road, by displaying speed limits and no passing signs in the instrument cluster, where they can easily be seen.

Adaptive Speed Limiter uses Traffic Sign Recognition information to adjust your vehicle's speed accordingly by using the cruise control system.

Rear Camera provides improved visibility when reversing*. Static lines representing the vehicle's outer perimeter and predicted path are superimposed on the rearward image displayed on your Touchscreen.

*These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Jaguar Retailer for more details. **Please note that if any action is taken, even minimal steering, the Emergency Braking system will assume the driver resumed control of the vehicle and the system will automatically disengage.

Adaptive Cruise Control with Stop & Go

Blind Spot Assist

PARK PACKAGE

Standard on I-PACE, Park Package enables you to park and maneuver in and out of tight spaces and into traffic that is obscured by buildings or other vehicles*. It features:

Park Assist makes parallel and perpendicular parking easier than ever by steering your vehicle into a suitable space. You just have to select the appropriate gear and control the vehicle speed with the brake and accelerator pedals. Graphics and notifications guide you through the maneuvers. Park Assist is also designed to steer you out of a space, taking all of the stress out of parking*.

360° Parking Aid gives you added confidence when maneuvering in tight spaces. Sensors located around the car are automatically triggered when Reverse is selected, or can be manually activated, with a graphic appearing on the Touchscreen showing an overhead view of the vehicle. As you park, the Touchscreen display and audio feedback indicate how close you are to obstacles*.

Rear Traffic Monitor is particularly useful when reversing out of a parking space. The system is designed to warn you of vehicles, pedestrians or other hazards approaching from either side of your vehicle. It will alert you with both audio and visual warnings so you know what's behind you even when the view is obstructed*.

Clear Exit Monitor alerts passengers leaving the vehicle from the rear doors to any approaching cars, cyclists or other hazards. If an incoming obstacle is detected, a warning light will flash on the door. The light will immediately go off when it is clear to open the door.

OPTIONAL PACKAGES

DRIVE PACKAGE¹

Making every journey more relaxing. The Drive Package includes:

Adaptive Cruise Control with Stop & Go is designed to keep your vehicle a set distance from the one in front should it slow or stop when you're cruising on the highway or travelling in slow-moving traffic. Should the vehicle in front stop completely, the system is designed to activate to bring your vehicle to a smooth halt. In stop/start traffic, Adaptive Cruise Control will automatically resume following the car in front. The system can be activated from 12 mph and once activated will operate up to highway speeds*.

High-speed Emergency Braking is designed to detect when a potential frontal collision with another vehicle may occur and to display a forward alert to warn the driver to brake. If the driver doesn't react^{††}, the car can provide braking assistance to help reduce the severity of the possible impact*. High-speed Emergency Braking is ready and active from 6 mph to 99 mph[‡].

Blind Spot Assist² alerts you to vehicles in, or quickly approaching, your blind spot. When a vehicle is detected, a small warning light will illuminate in the corresponding side mirror. When a rapid approaching vehicle is detected the warning light will flash to highlight potential danger. If you continue to commence changing lanes, this system is designed to provide a gentle steering torque – to guide your car away from the approaching vehicle[‡].

[†]Always follow local speed limits. ^{††}Please note that if any action is taken, even minimal steering, the High-speed Emergency Braking system will assume the driver resumed control of the vehicle and the system will automatically disengage.

¹Included within SE Specification Package or optional. ²Only available when optional auto-dimming, power fold door mirrors are fitted.

OPTIONAL PACKAGES

DRIVER ASSIST PACKAGE

The optional Driver Assist Package¹ offers a wide range of driver aids including the features found in the Drive Package (see page 27) and the 360° Surround Camera². It also includes new Adaptive Cruise Control with Steering Assist*. This latest technology makes highway driving and heavy traffic situations even easier and more comfortable. It achieves this by gently assisting steering, acceleration and braking to center the vehicle in lane while maintaining a set distance from vehicles ahead. Moderate steering interventions ensure that the physical effort of maintaining a central vehicle position is reduced.

¹Included within HSE Specification Package.

²Available as an optional feature. Only available when optional auto-dimming, power fold door mirrors are fitted.

*These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. The driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Jaguar Retailer for more details.

VEHICLE SHOWN: JAGUAR I-PACE FIRST EDITION IN CORRIS GREY WITH OPTIONAL EQUIPMENT

Adaptive Cruise Control with Steering Assist can be activated from 12 mph and once activated will operate up to highway speeds. It begins functioning when you press the "Set" cruise button. A camera and radar then work together to track vehicles and lanes ahead to maintain a central position for your vehicle, and moderate its speed according to the behavior of the traffic ahead of you. If the vehicle ahead slows, even to a standstill – the feature automatically slows your vehicle, bringing it to a stop where necessary and automatically resuming to maintain a relaxed and composed drive in busy traffic situations*.

Adaptive Cruise Control with Steering Assist works with you; as you keep your hands on the wheel anticipating the road ahead, the system assists with steering, braking and acceleration. Should you remove your hands from the wheel, the vehicle will provide a warning. If the warning is not heeded then the Steering Assist is deactivated but the Adaptive Cruise Control remains active*.

FRONT CAMERA

FRONT RADAR

EFFICIENT TECHNOLOGIES

FLOW ENHANCED DESIGN

The flow enhanced design of the I-PACE, maximizes aerodynamic efficiency and range. At the front, the top of the I-PACE grille curves inwards – enhancing aerodynamics by drawing air through the hood scoop. The slender spoiler and flush door handles keep airflow running smoothly over the car. Aerodynamically optimized side skirts also blend form and function by channelling air more efficiently around the wheels. At the rear, the squared off corners optimize aerodynamic performance by encouraging air to detach cleanly and efficiently from the car in a controlled way that minimizes the pressure differences that cause drag.

ACTIVE VANES

To give the optimum balance between cooling and aerodynamics, Active Vanes open when cooling of the batteries is required, but close when not needed to smooth airflow.

ECO MODE

Eco Mode helps optimize the I-PACE range on long drives. This mode modifies the car's settings to reduce energy depletion as well as encouraging a more efficient driving style by displaying a 'driving style rating' in the message center. Eco Mode can make subtle changes to cabin heating and cooling, the amount of air recirculation and to a number of the car's features. If required, the driver can override these changes by normal operation of each feature or via the menu settings.

ACTIVE AIR SUSPENSION

To improve aerodynamic performance and range, the Active Air Suspension lowers the car by 0.4 inches when travelling at speeds in excess of 65 mph. See page 17 for details.

ENHANCED BRAKE REGENERATION SYSTEM

As soon as the driver lifts off the accelerator, the Enhanced Brake Regeneration system in the motors efficiently converts available kinetic energy to electricity to charge the battery. Driving in heavy traffic is also easier – using the Touchscreen you can raise the level of regenerative braking. The corresponding increase in deceleration means that, in stop and go traffic for example, there is far greater control of the car's speed using only the throttle.

HEAT PUMP

The highly efficient heat pump enhances real world EV range, without compromising on passenger comfort. It harvests heat from the outside air and electronic components of the I-PACE. The collected heat transforms a special liquid within the heat pump into a gas, which causes it to rise in temperature. The warmth is transferred to the cabin via the heating and ventilation system, reducing the power demand from the vehicle battery and improving range – even in the coldest winter conditions, when you need it most.

VEHICLE SHOWN: JAGUAR I-PACE FIRST EDITION IN CORRIS GREY WITH OPTIONAL EQUIPMENT

DRIVER ASSISTANCE

Designed with safety in mind, the I-PACE has been engineered to include a wealth of features designed to provide protection to you and your passengers, but to also provide the driver with assistance when needed. Sure-footed All Wheel Drive (AWD) capability is designed to help you stay planted on the road, in various weather conditions*.

Dynamic Stability Control (DSC) monitors the dynamic behavior of the I-PACE, can intervene to enhance vehicle stability. DSC is designed to reduce motor torque and to apply braking to the appropriate wheels to correct the vehicle's direction of travel by counteracting understeer or oversteer*.

Electronic Traction Control (ETC) enhances traction and stability by controlling wheel spin. The ETC system reduces torque to the spinning wheel, then applies braking to the wheel, if required*.

Motor Drag Torque Control mitigates the chance of wheel lock-up caused by strong regenerative braking in slippery conditions. It acts by briefly increasing torque to the driven wheels as appropriate.

Roll Back Protection can provide assistance to prevent the vehicle from rolling backwards as you pull away on an incline*.

Roll Stability Control (RSC) is integrated with DSC to help reduce the possibility of rollover, while providing agility and ability to steer around obstacles. It monitors the vehicle motion and cornering forces to detect any potential risk of rollover. When risk is detected, braking is applied to the outside front wheel to help reduce forces which contribute to rollover*.

Emergency Brake Assist (EBA) analyzes braking input and if additional braking force is required, it boosts the brake pressure through the ABS pump to provide braking assistance. To help reduce the risk of a foreseeable collision, the emergency brake lights automatically activate the hazard warning lights during emergency braking*.

Emergency Braking gives an audible forward collision warning should a potential frontal collision be detected. Visual warnings follow. If you take no action†, the system provides braking assistance to help reduce the severity of the possible impact*. See page 26 for details.

Anti-lock Braking System (ABS) allows the vehicle to maintain traction with the road surface while braking and prevents wheels from locking – thereby retaining the vehicle's ability to steer. The system helps to shorten the braking distance*.

Electronic Brake-force Distribution (EBD) automatically varies the braking force to each axle in order to reduce stopping distance, while still maintaining stability and the vehicle's ability to steer.

All-round exterior LED lighting is standard on every I-PACE. LEDs are more energy-efficient and produce a light close to daylight conditions for less tiring night-time driving. The optional Premium LED headlights feature signature Daytime Running Lights and Auto High Beam Assist (AHBA) which automatically dips the main beam for oncoming traffic.

*These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. The driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Jaguar Retailer for more details. **Please remember that the safety belts in a vehicle constitute the primary protection system for driver and passengers in collisions. Airbags are not designed to deploy in all collisions. The airbag Supplemental Restraint System (SRS) is a supplement to the safety belts and is designed to work as a system with the safety belts. Although airbags provide additional protection, airbags without safety belts do not provide optimal protection in a crash. Always wear your safety belts. Children younger than 13 years old should always be properly restrained in a back seat, away from airbags. Never place a baby/child seat in the front seat. †Please note that if any action is taken, even minimal steering, the Emergency Braking system will assume the driver resumed control of the vehicle and the system will automatically disengage.

VEHICLE SHOWN: JAGUAR I-PACE FIRST EDITION IN CORRIS GREY WITH OPTIONAL EQUIPMENT

EXTERNAL SOUND SYSTEM (ESS)

As the electric powertrain of the I-PACE is almost silent at low speeds, an external acoustic signal is emitted under 12 mph to help make pedestrians aware of the car's presence.

LATCH AND AIRBAGS**

Latch points for baby/child seat restraints are fitted on each side of the rear seats and a comprehensive system of six airbags including driver and passenger airbags, side curtain and thorax are standard.

CHARGING/BATTERY SYSTEMS

The car will not engage Drive while the charging cable is plugged in and a warning message will be displayed on the Interactive Driver Display.

SAFETY CELL

Designed for safety, the I-PACE utilizes a combination of aluminum and steel to form a strong cage around the occupants as well as the battery.

PRACTICALITY EVERY DETAIL RECONSIDERED

The space-efficient electric architecture offered numerous opportunities to create a highly practical interior – and we seized every one of them. Our designers have been able to place the front seats further forward, towards the space where the combustion engine would normally be, without compromising the driving position. This means there's a greater distance between the front and rear seats, giving rear seat passengers added legroom and comfort. Behind the rear seats, the cargo space is a substantial 25.3 cu.ft. with a length of 38.1 inches.

As the motors are integrated with the axles, space has been created for a 0.43 cu.ft. storage bin under the front center armrest. It also means the floor of the interior is almost flat, providing ample legroom for a passenger sitting in the middle rear seat. There's convenient storage space under the full width of the rear seats too. And because electric motors don't require a conventional gearbox, we've used this space to create room in front of the console perfect for phones and keys. If you need more room, both deep front door bins have been sculpted to carry a variety of items. Completing the I-PACE carrying capacity is a front storage compartment that provides 0.95 cu.ft. of additional storage.

The I-PACE offers numerous convenient places to connect your smartphone, tablet or other devices. Beneath the 5" Touchscreen you'll find two USB ports. Inside the console, a 12V power socket and two USB sockets are available for charging, while the rear of the center console has two USB sockets and a 12V socket as standard for passengers in the back. For added convenience, the cargo space features a 12V power socket.

With the optional Activity Key you can enjoy your favorite activities, and keep your car key securely in the car. The Activity Key fits conveniently on your wrist. The wristband is robust and fully waterproof, allowing you to take part in many activities from cycling to swimming. Simply place your Activity Key against the letter 'J' on the tailgate's Jaguar badge to lock or unlock the car and deactivate or reactivate the conventional key fob. If your hands are full, optional powered gesture tailgate* lets you open the trunk hands-free. Simply present your foot under one of the I-PACE rear flanks and the tailgate opens or closes.

*Included within HSE Specification Package.

SPECIFICATIONS

FIRST EDITION

Only available for a limited time, the First Edition specification is inspired by the I-PACE Concept, and includes design details including Photon Red paint¹ and 20" split-spoke alloy wheels in Technical Grey with Polished finish. High specification exterior features include Premium LED headlights with Jaguar signature Daytime Running Lights.

Inside a choice of color combinations, Ebony or Light Oyster, are available with an exclusive combination of a suedecloth headlining, Gloss Charcoal Ash First Edition veneer and First Edition branded metal treadplates.

First Edition includes all of the features available on the I-PACE HSE (see pages 40 and 41) plus the following as standard:

EXTERIOR FEATURES

- Heated windshield • Heated washer jets • Gloss Black side window surround
- 20" 5 split-spoke 'Style 5070' alloy wheels in Technical Grey with Polished finish²

INTERIOR FEATURES

- Metal treadplates with First Edition branding • Suedecloth headlining • Gloss Charcoal Ash First Edition veneer • Heated steering wheel • Four-zone Climate Control
- Configurable Ambient Interior Lighting • Head-up Display* • Activity Key

DYNAMICS

- Adaptive Dynamics* with Configurable Dynamics

*These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Jaguar Retailer for more details.

¹Photon Red is exclusive to First Edition for a limited time only. First Edition is also available in Santorini Black and Corris Grey. ²22" 5 spoke 'Style 5069' alloy wheels in Gloss Black with Diamond Turned finish and carbon inserts are also available as an option.

All features described as exclusive to I-PACE First Edition may become available as options in future model years.

Power operated child locks
Seat belt reminder

*These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Jaguar Retailer for more details. **Do not use Jaguar InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control. †A 3-month trial subscription to the SiriusXM All Access package is included with the vehicle, which gives you access to 175+ channels of premium programming. Plus you can stream SiriusXM on your computer, smartphone or tablet – it's included in your trial. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See the SiriusXM Customer Agreement for complete terms at siriusxm.com. All fees and programming are subject to change. SiriusXM Satellite Radio is not available in Alaska, Hawaii, or Puerto Rico. ††The Wi-Fi hotspot is intended for passenger use only. InControl features may require an additional subscription with separate terms and conditions. ‡Please note that if any action is taken, even minimal steering, the Emergency Braking system will assume the driver resumed control of the vehicle and the system will automatically disengage.
